BREEDING:

Smuggler comes from the same herd as Primas. Mr. Silovsky, his breeder, decided to use insemination doses of Scottish bull Catrionase on daughter of well-known Czech bull Jakarta. The result of this fusion is Smuggler, a bull with an excellent growth in performance test station. His breeding values of growth, frame, body capacity, muscling and breeding type has brought him among the top bulls of Aberdeen Angus breed in Czech Republic. Smuggler is a bull fully useable in crossbreeding too.
