CONFORMATION

Chum is a new very attractive heterozygous hornless bull. He impresses especially with his flawless harmonious exterior and great expression. Chum received excellent 84 points in selection for breeding. The annual weight of 717 kg and the gain in the test of 2200 g testify to his excellent growth.

From his calves we expect great musculature, body capacity and outstanding quality of feet and legs. Chum does not carry the gene for double muscling and progressive ataxia.
