### RELATIVE BREEDING VALUES –DIRECT EFFECT (CZ, 6/2016)

76 calves in 13 herds

### PERFORMANCE TEST

|                        |
|------------------------|
| 120 days               |
| 259 kg                 |
| 210 days               |
| 400 kg                 |
| 365 days               |
| 602 kg                 |
| Daily gain since birth |
| 1534 g                 |

### CALVING:

Verdel P is hot new bull from Novak's farm. His parentage is an interesting combination of Czech-French genetics. His father is Family, great French insemination bull, champion of maternal traits. Father of mother is Czech legendary bull Jock P. Mr. Novak, breeder, says: „My aim was to produce a polled bull with good muscling who would improve maternal traits. This is very difficult considering the polled genetic. Therefore I used French number 1 for maternal traits in father position and daughter of Jock with very good muscling and easy calving. Verdel showed excellent growth since birth and we also were lucky with the Polled character transmitted from his mother. Verdel has all predispositions to bring „muscled polled genetics“.“
